NSPA Website Critique Form 2010

Introducing the NSPA Multimedia Guidebook.
To meet the increasing needs of student media staffs and advisers, NSPA developed a set of standards for multimedia.

Similar to Guidebooks for print publications, the new Guidebook follows the same basic format but provides this new tool in a format that is both useful for students and teachers but also "walks the talk" of multimedia. It's an interactive digital document using Adobe PDF and designed for display on a computer screen (or printed for student texts).

The Multimedia Guidebook includes tips on news gathering and website management, and it sets standards in five categories:

- Coverage and Content
- Interactivity/Community Tools
- Breaking News
- Design and Navigation
- Rich Media

Get your website critiqued. NSPA critiques are judged by experienced media advisers or educators and media professionals. If you're already an NSPA member, just add $80 for a critique.

- Judges provide feedback and scoring for five categories. An NSPA rating recognizes your achievement and serves as a benchmark for improvement.
- Websites can qualify for the NSPA Hall of Fame by earning 10 All-American ratings within an 11-year span.
- If you're a media educator or professional with online experience, NSPA is looking for you to help judge for our website critique services. Judges are paid an honorarium per publication with an option to donate to NSPA scholarship funds. E-mail kathy@studentpress.org for further information on judging.

Even if you are just starting up your publication website, NSPA's critique services can provide valuable ideas, tips and suggestions for improvement to help you plan for your website's growth.

Complete the form below and send with the site's URL and your payment to NSPA Website Critiques, 2221 University Ave. SE, Suite 121, Minneapolis, MN 55414.

NSPA Website Critique Service Entry Form

Name of Publication

School Name
