

[Verse 1]
I'll fly high into the sky even if I fall on
my face
I know I need to give it a try
Cause I know I gotta leave this nest
someday

It's been fun being around here
But it's time to move onto other things
You taught me how to fly
How to navigate the world outside

[Chorus]
Goodbye
Goodbye
I'll see you in a little while, okay?

Goodbye
Goodbye
This isn't forever goodbye

[Verse 2]
In your eyes I'm still that baby bird
learning to fly
But here I am with my wing wide
ready to take flight

[Bridge]
I'm still growing
I'm still learning
I'm still learning from you
Just know that,
Without you

I wouldn't be here

[Chorus]
Goodbye
Goodbye
I'll see you in a little while, okay?
Goodbye
Goodbye
This isn't forever goodbye

[Verse 3]
I'll tumble
I'll fall
Into this new world
I'll be a little baby bird
Flyin' on my own

Sky high or down to the ground
Don't make a frown
I'll get past the troubles in life
Because you taught me how

[Chorus]
Goodbye
Goodbye
I'll see you in a little while, okay?
Goodbye
Goodbye
This isn't forever goodbye

Slowed
This isn't forever goodbye

baby
bird
