Not going to lie, we were pretty lost our first year.  
We fell behind because of Hurricane Harvey.  
An unfinished school and new faces overwhelmed us.

Our second year is when we found our rhythm.  
We began to thrive as one.  
We learned to love our school and show  
our Bear pride.

Third year and we're all here now.

**SPIRITED.**  
**COMPETITIVE**  
**CAUGHT UP.**

We shed our old school colors for the Bridgeland blue  
and orange, and we know how things  
work around here.

In such a big school, no one has time to walk slowly  
from class to class.

Pay attention to the bathroom signs because  
they're not consistent.

Parking spots were not made to be backed into.

If the gate's dropping, be ready to run.

It's all part of the Bridgeland way.

And here we are.

**WE'RE BUILDING BRIDGELAND**

"I feel like school work can sometimes  
engulf me, and it's very overwhelming  
because, as soon as I feel like I've caught  
up and I can breathe, more work is piled up  
for me to do."

**Yazmin Coronado**<sup>12</sup>

**It's all worth it. We're determined to make  
our dreams realities. We've got goals and  
we're caught up in achieving them.**

"Getting caught up is getting me to where I  
need to graduate. It helps me feel prepared  
for life and it means that I'm on track in my  
life."

**Faith Herbert**<sup>12</sup>

**We can't accomplish anything alone. We  
need each other to finish the race.**

"I have great team members, the people  
that work in my department, the people  
within my team as far as courses that I  
teach, and my partner that I work with  
on the coaching side are extremely  
supportive."

**UNFORGETTABLE**

The year didn't finish the way we planned. On April 17,  
Governor Greg Abbott closed schools  
for the remainder of the year.

UIL canceled remaining Spring sports and  
competitions. Events like King Kodiak couldn't happen.

Proms and graduations were impacted.

But, even at school or through a screen, we manage to  
remain determined.

**This year we've adapted to the struggles  
and came out stronger than before.**

"This year has shown me that anything is possible, and I have learned that you must stay positive no matter what is going in the world around you. I've taught myself to succeed by studying a lot and staying up till 3 or 4 in the morning preparing for a test, finishing a project or doing homework."

Isabel Serralde<sup>11</sup>

**We focused our goals. Striving to try our  
best and accomplish it all.**

"I think this year has taught me a lot. I just think about my future and how if I don't do what needs to be done, it might hold me back. I know that as long as I put in an effort, then I'm doing something which is better than nothing at all."

Mikhaela Torres<sup>09</sup>

**Without one another, we never would  
have achieved what we did this year.**

"I never really realized how much I relied on the day-to-day interactions with friends and teammates. Spending time with my teammates during practices meets and games, going out with friends after school has been some of my favorite moments this year."
