140 students surveyed about which way they lean on political issues

Who do you support in the 2020 election?

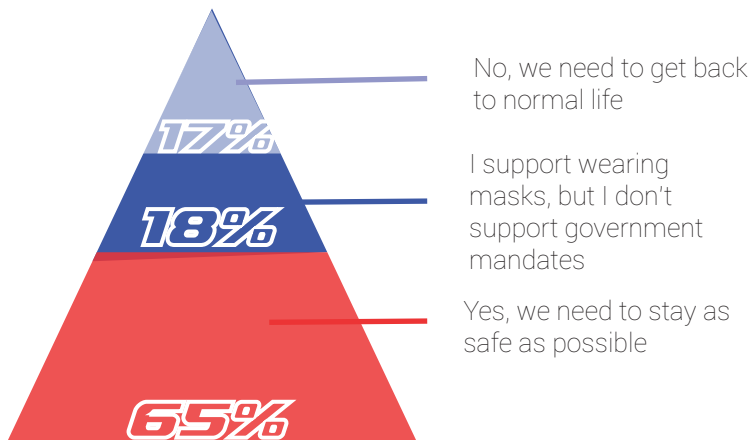

Is climate change a real issue that needs to be addressed?

"I support **President Trump** in this election. Even though I don't personally like his character, I fully support him because I feel like the state of the country economically was great before COVID-19 hit."

Do you support mask mandates?

"I support **Joe Biden** because I agree with his policies and what he plans to do for the country more than what [Donald] Trump has done. Specifically, I support Joe's plans on dealing with climate change because that is an issue that is very apparent and needs to be fixed as soon as possible."

Where do you stand on racial inequality?

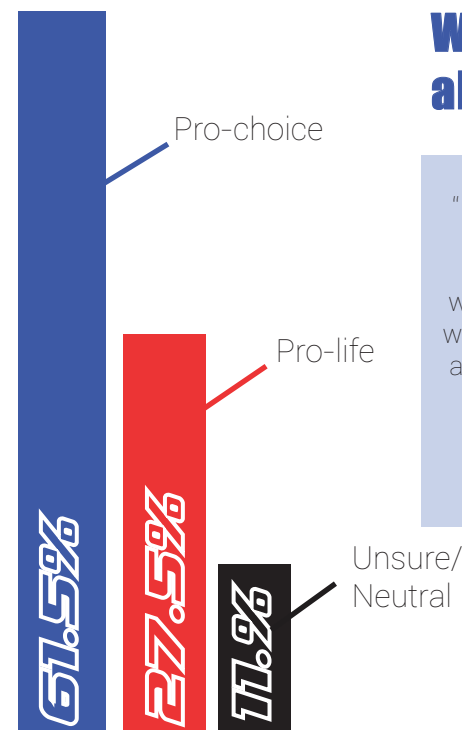

"I personally believe that racial inequality is still a very big problem that many people have to deal with on a day-to-day basis. If you choose to ignore the topic you are not helping the problem; you are contributing to it. As a group, we need to address this because if we continue to ignore it it's just going to affect more lives."

Where do you stand on gun control?

Where do you stand on abortion?

"Personally, because of my religion, I think abortion is wrong. But I also understand that it is not my decision for other women or people who need it. I don't think we should defund any services that provide abortion, and I feel like if it's not your body, then you shouldn't delegate over it."
