HOW CAN I ASSIST?

OpenAI reports that over one-third of individuals aged 18 to 24 in the U.S. use ChatGPT, making college-aged young adults the platform's most frequent users. *Photo by Solen Feyissa courtesy of Unsplash*

HIGH USAGE OF AI

A vast majority of students reported that they were using ChatGPT or another AI software to help complete assignments throughout this academic year.

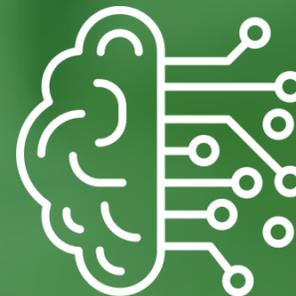

4.76 /10

Overall, while some students felt that they have become overly reliant on artificial intelligence to complete their assignments, the average student stated on a scale from one to 10 they were a 4.76 in terms of how much they rely on these softwares.
