

# Journalism Portfolio

Keely Crawford

My name is Keely Crawford and I am a soon-to-be senior at Edmond North High School in Edmond Oklahoma. I am currently the News Editor for my school's weekly announcement show The North Report. In this role, I helped supervise packages, edit every script for the show, create and implement a new production schedule, and produce my own Local and National award-winning pieces. I traveled and competed at the past NHSJC convention in Kansas City and received an Honorable Mention at JEA's Broadcast Newswriting, Second Place at NSPA's Broadcast News Story, and Third Place for NSPA's Broadcast Feature Story. Additionally this school year, I served as Vice President of Edmond North's first-ever Broadcasting Club, a program to build a more collaborative culture across all of the Broadcasting classes in hopes of growing our program closer together. This past March I ended my term on PBS NewsHour's Student Reporting Labs Student Advisory team alongside 26 other students who were selected across the nation. Now, I am actively working as a Special Correspondent and Producer for Student Reporting Labs' special election coverage season of the On Our Minds podcast. There, I get to lead a group to create an episode for the podcast, give feedback to other group's stories, and produce a few audio pieces of my own. This past summer I was chosen to participate in Student Reporting Labs 2023 Summer Academy in Boston and had the amazing opportunity to

produce and edit a piece over the Boston Renegades which aired on NewsHour. In addition to my interests in journalism, I am the second chair Clarinet in Edmond North's award-winning Wind Ensemble and the Captain of the Color Guard. I'm also a member and Captain of the Winter Guard, a Technical Assistant Director of the Junior Varsity Winter Guard, served on the Band Council as a Historian, and a member of the National Honors Society.

As a student producer, journalist, and editor I am devoted to sharing other's stories and educating others along the way. I have always been a strong believer in "Giving a voice to the voiceless" and have made it my mission in my Journalism career to do just that. With my time at my broadcasting program, Husky Network, and The North Report, I have seen how people in power will try to silence and censor those who try to speak up and I am here to remind those people and those who are oblivious and ignorant that the oppressed stories deserve to be told too. Not only our community, but the world deserves to hear everyone's story and I hope to be the output into the world.

**01.** Keely Crawford dives into Edmond North's own, *The PawPrint* and finds what their expectations are for this school year.

Assistant Producer: Abby Jones

Videographer: Ethan Pourtorkan

 The Pawprint Feature Story

**02.** With our beloved Friday Night Lights coming to a close, Keely Crawford Speaks with some key members of the events and what their experiences mean to them.
